## BUDDY ROLL OUT CANOPY AWNING

Buddy is a durable and stylish awning designed for motorhomes. It's easy to set up and gives you extra living space outside the vehicle. If you need to create some shelter or extra warmth on a chilly sort of day, Buddy is an easy and flexible solution. Two sides and a front create an enclosed living space under the awning of your motorhome. Strong magnets hold the awning roof and side panels together, while the front simply zips on. You can place Buddy wherever you like on the awning, giving you the unique flexibility to create both an enclosed living space and a covered porch under the motorhome's awning.

When you choose the Buddy awning to accompany you on your

travels, you can be assured of the same comfort and functionality that are the trademark features of the Isabella awnings for caravans.

Buddy is made from Isacryl, a robust, fibre-dyed acrylic material. Isacryl ensures that the colours stay beautiful and that you can create the best possible indoor climate. The large windows in the front and side panels give you an unobstructed view to enjoy your surroundings.

Buddy has a depth of 2.5 m and the front comes in four different sizes.

**The fronts are available in four widths:** 270, 320, 370, 420 cm.  
Can be used on canopies from 3 metres upwards.

**Depth of side pieces:** 250 cm - suitable for canopies with extensions of approx. 250 cm. (+/-)

**Weight:** 270: 4,640 kg. 320: 5,150 kg. 370: 5,665 kg. 420: 6,130 kg.  
Sides: 15,140 kg.

**Suitable for vehicles:** with rail height of 240 cm to 275 cm.

**Optional extras:** You can purchase veranda poles and Cube Creme curtains for both the side and fronts

  
**MADE IN  
EUROPE**  
DESIGNED IN DENMARK

## VENTURA AIR DOVE 350 / 400

It's made in Europe and the use of quality materials ensures you a low-maintenance awning with long durability and high comfort levels. The front and sides are removable, to create good air circulation on hot summer days.

The air tubes make it easy to put up and take down. Simply pump the air in at one point, and your awning will be ready for use in no time. To make sure Dove fits snugly onto your van or vehicle, a foam pad and suction cups are included to ensure a perfect fit and prevent rain and wind from getting in.

Dove is equipped with a unique height adjustment system that allows adjustment to different heights and therefore fits motorhomes with a rail height of between 245 and 270 cm.

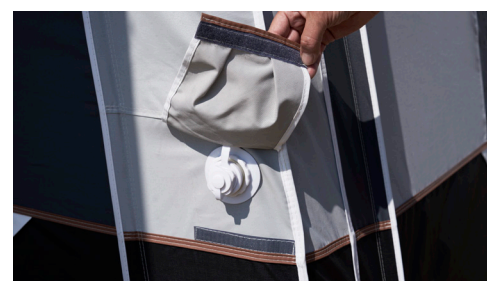

Double bead 7,5 mm and 5 mm

Can be extended with a sun canopy<sup>1</sup> (Depth: 220 cm) and annex. (optional extras)

**Depth:** 260 cm

**Weight:** 350: 22,880 kg, 400: 24,270 kg.

**Fits:** motorhomes with a rail height between 245 and 270 cm.

## CIRRUS NORTH 300/400

Cirrus North is a combination of classic Isabella design, high-quality materials and a unique IsaAir system. The fronts and sides are made in our traditional solid-dyed Isacryl, which is a lightweight, robust and above all breathable material. Thanks to the solid-dyed material, your air awning will retain its beautiful colours for many years to come. The Isacryl fabric allows your air awning to breathe, and the large mosquito nets at both sides make for the best possible indoor climate while minimising condensation. Single inflation from any of the 3 valves and multi deflation. All air beams can be isolated.

**Depth:** 275 cm

**Width:** 300 / 400 cm

**Weight:** 300: 24,160 kg. 400: 26,495 kg.

**Fits:** Motorhomes with awning railheights between 242 and 255 cm.

Isabella  
**AIR**

## VENTURA AIR VIVO

W300 / W300 HIGH

Compact and smart porch for motorhomes and vans. Vivo is extremely easy to set up and can very easily be transformed into an open canopy to create shading during your sunny adventures.

**Removable/fold-down panels:** Zip out front. Option to roll the entire side panel to the back.

**Depth:** 260 cm

**Weight:** W300: 22,40 kg. W300 HIGH: 22,90 kg.

**W300 fits:** Motorhomes with an awning rail height of between 240-255 cm.

**W300 HIGH fits:** Motorhomes with an awning rail height of between 270 -290 cm.

## WINTER

Thanks to the heavy-duty materials, a special roof angle to prevent the build-up of snow, an extra wide external mud flap, a strong steel frame, flexible pegging and window foil designed to withstand extreme temperatures, Isabella's Winter awning will stay the course – even in a heavy snow storm. The model is made of easy-to-clean polyester/PVC material and has doors in both sides as well as zipped ventilation.

**Distance between roof poles:**  
203 cm.

**Depth:** 180 cm

**Width:** 220 cm

**Weight:** 14,70 kg.

**Fits:** Motorhomes with awning rail heights between 235 - 250 cm

# ISABELLA AIR Y SUN CANOPY

Isabella  
AIR

This sun canopy is shaped like a letter “Y” and is quick and easy to inflate with the air beam. You just have to pump it up in one place using the Isabella Air pump supplied. This sun canopy is made from a well-known material called Isacryl, which is a light-weight, robust, dyed material, whose colours retain their beauty for many years to come. This sun canopy has a large window section at the front to give you a really great view.

**Height:** 245 cm  
**Depth:** 240 cm  
**Width:** 360 cm  
**Weight:** 9,525 kg.  
**Fits:** Motorhomes with awning rail heights between 240–250 cm

## FRONT NET

300 / 400

Get extra shade from your sunshade. Isabella’s front net is designed to be attached directly to the sunshade of your campervan to create even more shade than you already have with your sunshade. This front net has beads on both sides so that you can reverse it depending on whether the bead on your sunshade is 5 mm or 6 mm.

Available in two sizes to fit both Thule, Dometic and Fiamma sunshades.

**Dimensions:** 300 x 75 cm  
400 x 75 cm

**Weight:** 300: 1,66 kg. 400: 2,180 kg.

## X-TENSION FREESTANDING AIR AWNING

Space can be at a premium in a van. The Isabella Air X-Tension lets you expand your area by no less than 8.25 m<sup>2</sup>, giving you a spacious living area with plenty of headroom. A smart detail with X-Tension is that you can easily zip out two of the sides, and transform it into a sun canopy with a fixed screen panel.

Isabella Air X-tension gives you the ultimate freedom on a camping holiday. Fast, easy erection using air tubes means you can quickly put your air awning up or take it down, letting you quickly move on to your next destination. And if you want to stay on the

site, but go for a drive, you simply leave the X-Tension standing to keep your place while you go and explore. All you have to do is disconnect it from your van by unzipping the tunnel.

**Height:** 235 cm

**Depth:** 250 cm

**Width:** 330 cm

**Weight:** 23 kg.

**Packed measurements:** 120 x 48 x 35 cm

## Choose the tunnel that fits your van <sup>1</sup>

When you connect X-Tension to your van, specially-developed tunnels ensure that it fits perfectly.

### **Isabella Air X-Tension Tunnel for California.**

*Fits:* VW California

### **Isabella Air X-Tension Tunnel for Van**

## SHADE SUN CANOPY

Shade is all you need on your summer holidays or weekends away with high sun and warm temperatures. With three lightweight CarbonX poles and a lightweight canvas, you can set up Shade quickly and efficiently in an instant. The ultra-light weight of just 5.5 kg gives you more space for your luggage, for example bikes, barbeques and camping furniture.

If you want more than just a sun canopy that provides shade, Shade is an ideal solution. It consists of a roof and an integrated front to provide extra shelter from the wind at the front.

Shade is mounted directly on a campervan with a rail height of 210-260 cm.

**Depth:** 200 cm

**Weight:** 5,61 kg.

## LEVO COSY CORNER

Quick shade and shelter for your campervan. The Levo Cosy Corner is a unique cosy corner designed to create shade and shelter for your campervan. You can put it up extremely quickly – in fact, it can stay up with a single pole while you're taking a coffee break when you're driving from place to place. One smart detail of the Levo Cosy Corner is that you can move it freely on the caravan rail and place it wherever it provides the most shade. You can combine the Levo Cosy Corner with the flexible Levo windscreen to create even more shelter for your campervan.

**Height:** 255 / 185 cm

**Depth:** 210 cm

**Width:** 255 / 230 cm

**Weight:** 5,545 kg.

## LEVO WINDSCREEN

The flexible, lightweight windscreen. The Levo is a freestanding windscreen designed to be put up quickly and easily. It weighs just 4 kg and is particularly ideal for travel use. The Levo windscreen can be used for lots of different purposes where shade is required.

**Height:** 180 / 110 cm

**Width:** 264 cm

**Weight:** 4 kg

## ASA SUN CANOPY FOR VANS

The Asa sun canopy is designed for vans such as the VW California and other vehicles of the same type.

Asa is designed to make your holiday easy. The sun canopy has a simple construction that makes it quick and easy to put up and take down again. Weighing just 5.1 kg, it takes up minimal space when packed away.

The sun canopy comes in a sustainable transport bag made from material left over from production of the sun canopy.

**Depth:** 235 cm

**Width:** 252 cm

**Weight:** 4,785 kg.

**Bead:** Diameter: 7.5 mm

**Max. rail height:** Suitable for vehicles with a maximum rail height of 196 cm.

# FLEXIBLE DESIGN = FREEDOM TO TRAVEL

Isabella equipment for motorhomes and vans is designed to be flexible, because we know that mobility is essential for your holiday. We believe that gives you the freedom to travel...

## When you choose Isabella equipment for your motorhome or van, you get:

### Flexible design

A flexible design and thus freedom for spontaneous adventures. For example, you can disconnect your vehicle and leave the awning while you explore.

### Quality

Materials that set new standards as far as equipment for motorhomes and vans goes. All our materials are created in a durable colour fast quality with high light fastness, so the colours remain like new.

### Custom solutions

Custom solutions that ensure our equipment fits your vehicle 100% perfectly. For example, we make one awning for all camper vans with customised tunnels, developed to fit each vehicle type.

### Stylish Danish design

Stylish Danish design and elegant colours for a timeless look.

### Comfort

Details that make your holiday more comfortable. For example, our motorhome and van awnings have plenty of ventilation options in the front and the sides. This reduces the risk of condensation and ensures a comfortable climate inside your awning.
